SOUTHFIELD PRIMARY SCHOOL

GOVERNORS' TERMS OF OFFICE & REFERENCE

Governors

Southfield's Governing Body is responsible, together with the Headteacher, for the overall running of the school. Governors work as a team and aim to play our part in helping to make Southfield a happy and stimulating school for your child.

Southfield School has eight Governors, made up of elected parents, elected teachers, representatives of the Ealing local education authority and Co-opted Governors. Each Governor's term of office lasts four years.

The Governing Body meets at least once a term and deals with a wide range of issues concerning the school. It has two sub-committees – the Curriculum, Teaching and Standards Committee which covers the curriculum, and the Resources Committee which is responsible for management, finance, appointments and the School building. These Committees consider issues in more detail and report to the full Governing Body. As Governors, our main responsibilities are to:

- oversee the school's budget. This is allocated each year by the local education authority. The Governing Body, in consultation with the Headteacher, decides how that money is spent;
- decide on staffing levels and oversee staff appointments;
- monitor the School Development Plan. This is a short, medium and long-term plan for the school covering the curriculum and its development, financial management and premises;
- maintain links with Ealing local authority from which the school receives support and advice on financial, personnel, premises and curriculum matters.
